

Systems Summary - Scenarios, Requirements and Tasks

1. E-Commerce Order Processing System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

2. Online Examination Management System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

3. Ride-Sharing Dispatch System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

4. Banking Transaction System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

5. Online Gaming Tournament Tracker

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

6. Inventory and Restock Management System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

7. College Admission System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

8. Warehouse Delivery Tracking System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

9. Event Ticket Reservation System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

10. Hospital Patient Management System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

11. Library Management System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

12. Courier Delivery Routing System

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

13. Online Streaming Watch History

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

14. Customer Feedback Analysis

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree

15. Sports Tournament Scheduler

Scenario: (see assignment) Requirements: Use appropriate Java collections - List, Set, Queue, Stack, PriorityQueue, Tree
